How to Transform Jira into a Project Tracker

JOSE JIMENEZ | ATlassian CONSULTANT | JOSE.JIMENEZ@DEISER.COM

Jira Projects pain points

**Let's face it, we all
think Jira Project
organization is a
mess**

**(some people more than
others...)**

PROFIELDS
DEISER

Jira only has seven
project-specific
information fields.

What needs do you need
to cover?

The screenshot shows the Jira Project settings page for a project named 'boliviae'. The 'Details' section is highlighted with a red circle. The fields in this section are:

- Name: boliviae
- Key: BIVE
- URL: (empty)
- Project type: Business
- Project category: None
- Avatar: (Jira icon) select image
- Description: Project for performance testing

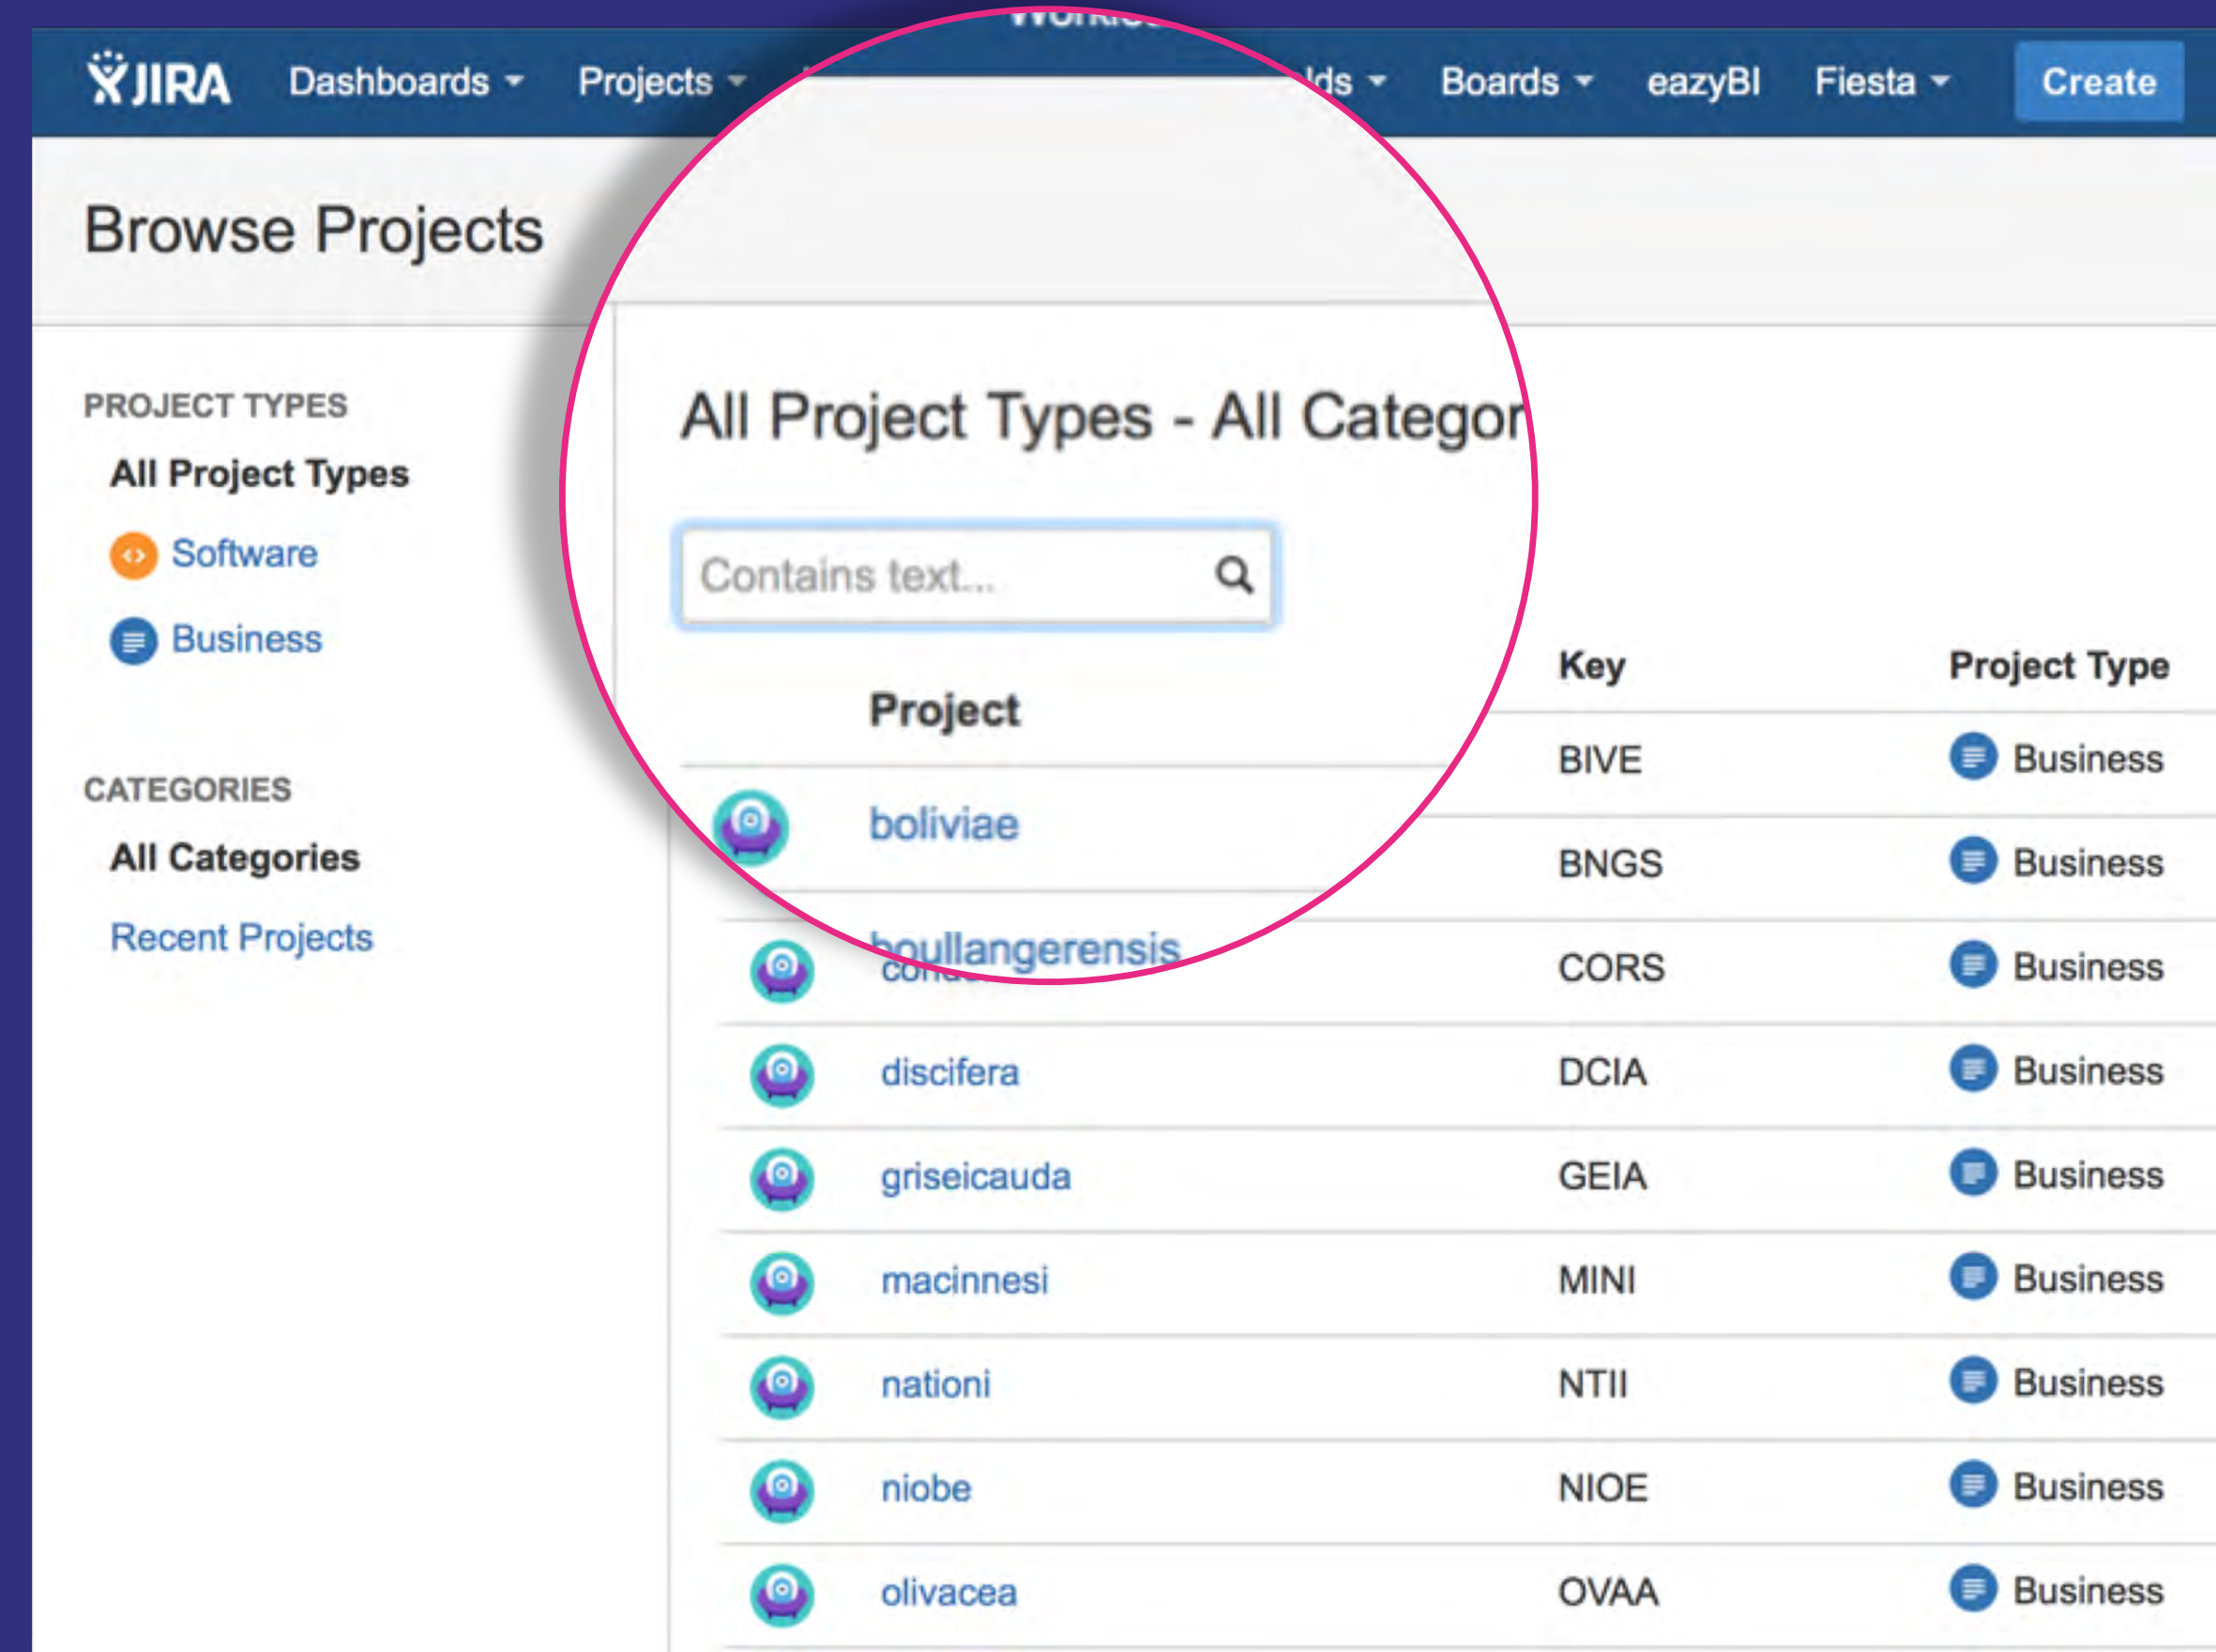

At the bottom of the page, there are buttons for 'Save details' and 'Cancel'.

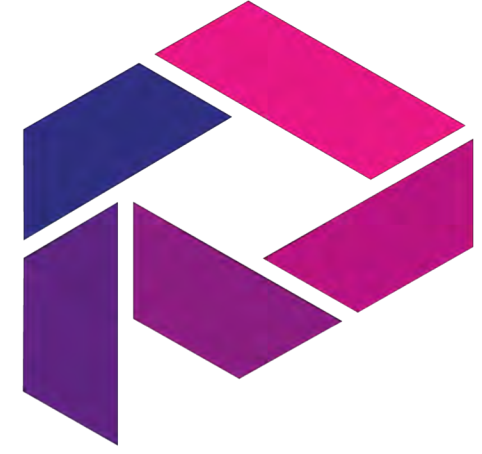

PROFIELDS
DEISER

Jira just has very basic
project searching
capabilities.

What needs do you
need to cover?

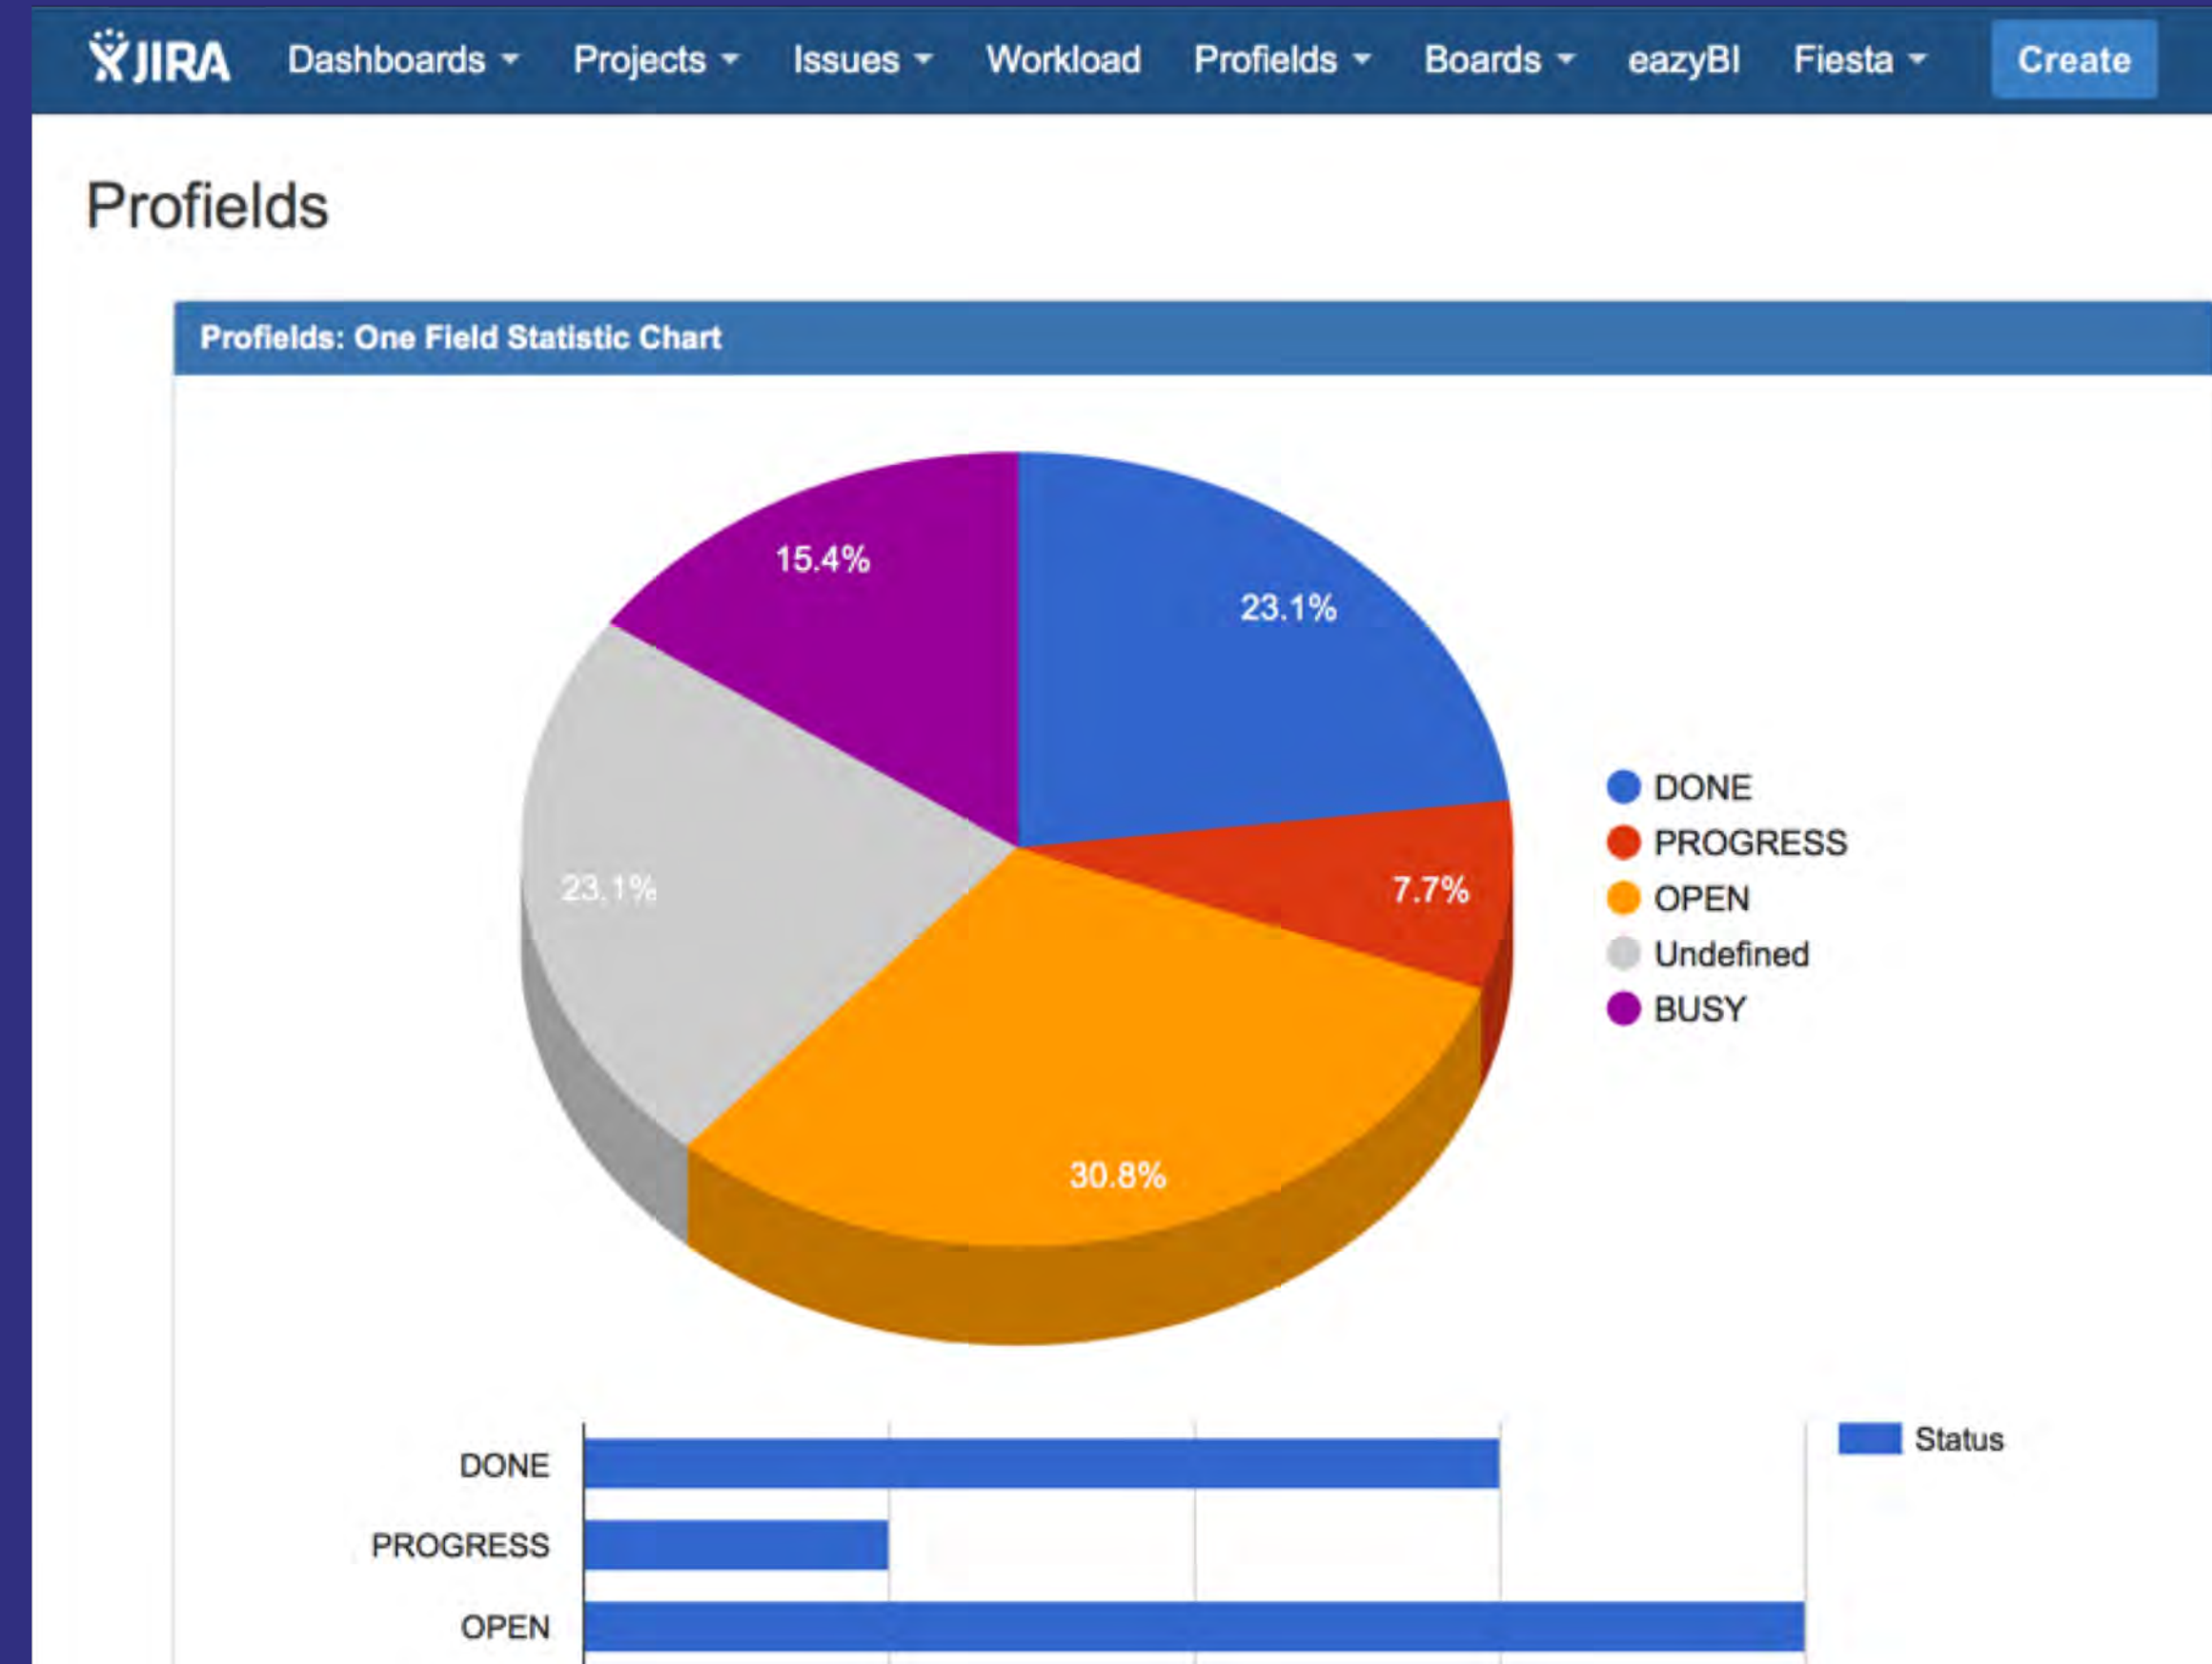

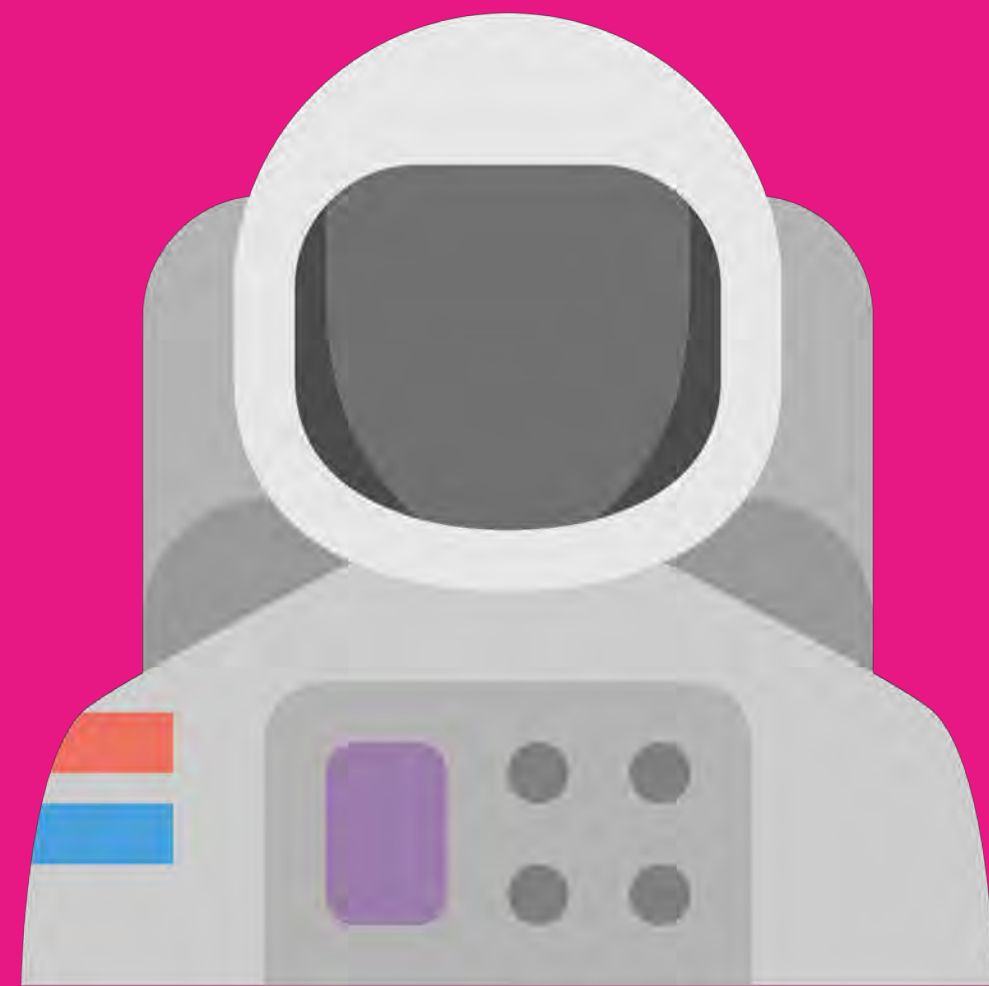

PROFIELDS
DEISER

Jira doesn't have
“project-specific
information” based
reports or gadgets.

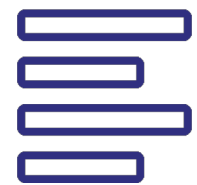

What needs do you
need to cover?

When does an instance needs Profields?

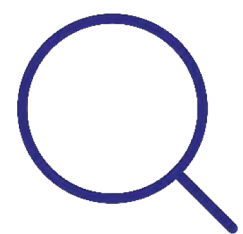

Profields Main Features

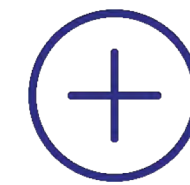

Project Custom Fields

Multiple field types for JIRA Projects: List, Numeric, Status, Priority, Script and much more.

Project Navigator and Gadgets

Search and filter through JIRA Projects, and get useful Dashboard gadgets.

Calculated Fields

Aggregate the value of a single issue's field in a Project. Perfect for having everything under control.

REST and Java API's

Access and set Project Fields from third party software.

HOW DOES PROFIELDS WORK?

Layouts

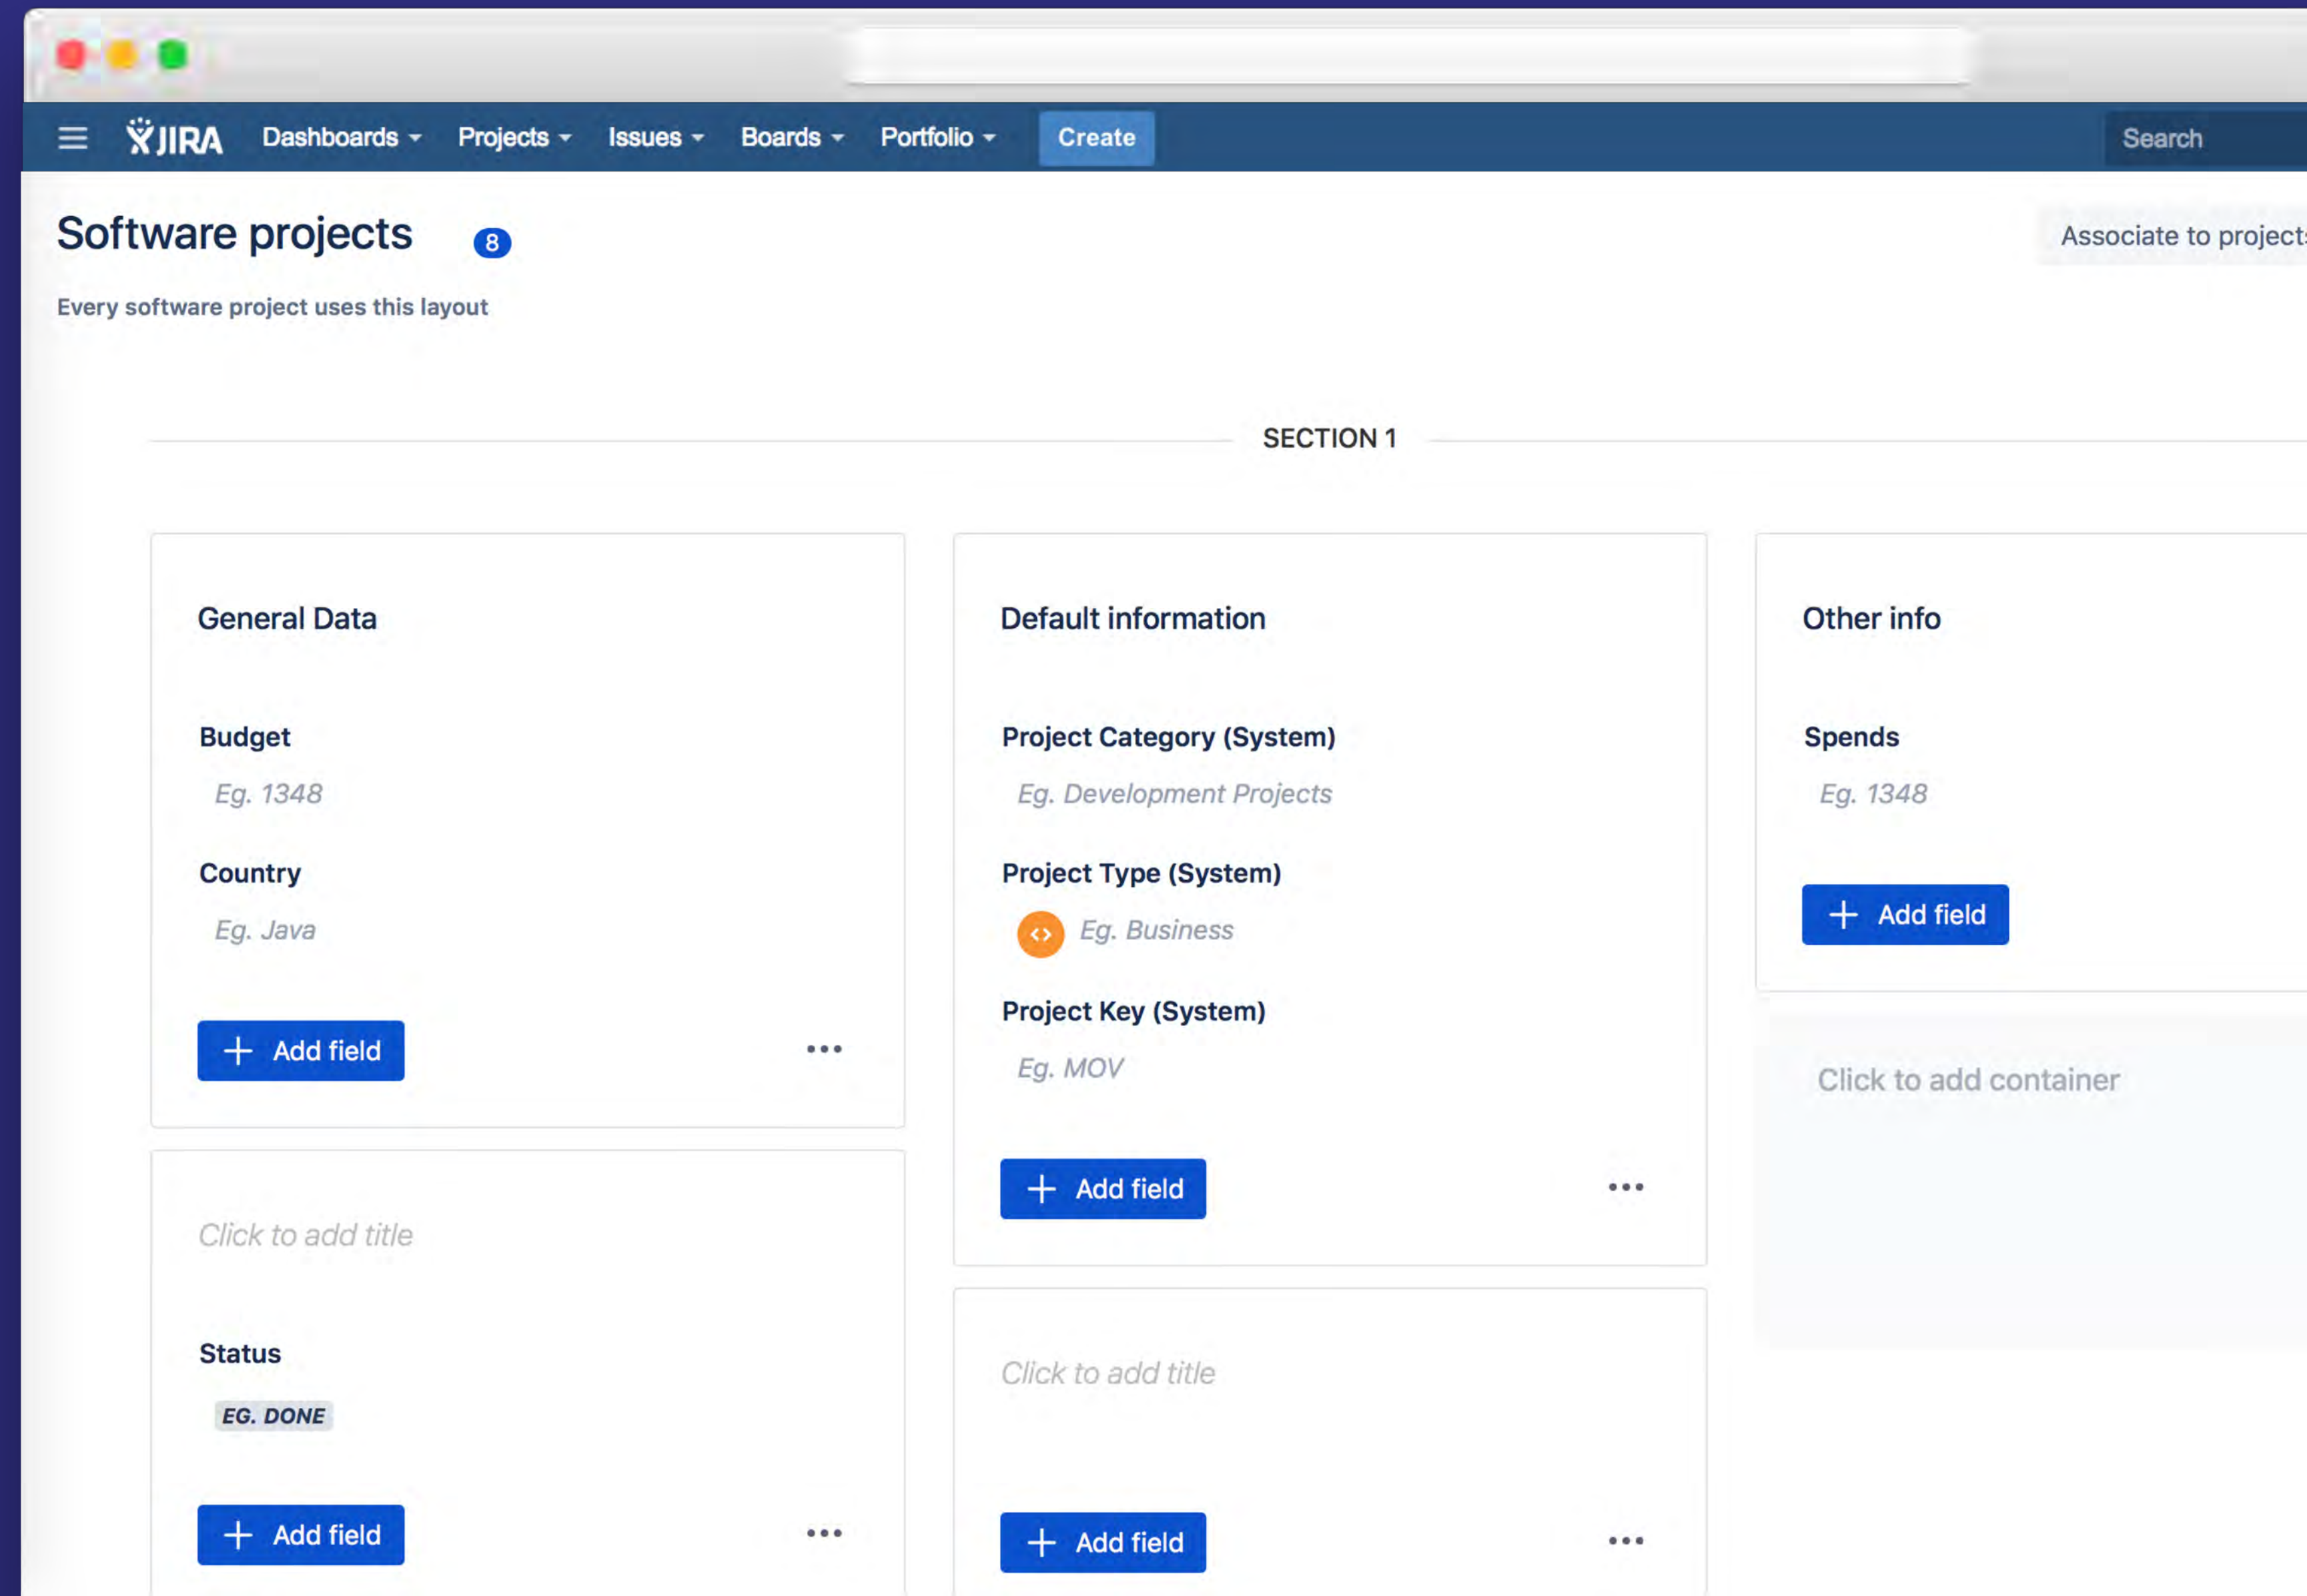

Organize and reuse fields across your projects

Project Navigator

Search and filter through JIRA Projects, and get useful Dashboard gadgets.

Use cases

How to keep track of budget and due dates

How to track and automatically update support packs

How to improve your DevOps process

How to keep track of budget and due dates.

Marcus is a Project Manager that needs to keep close his project's in Jira without using another tool. Thanks to Profield's Layouts, Custom Fields and Project Navigator, now it's possible.
